organise
**ROMANIAN FOUNDRY
CONFERENCE**
AND EXHIBITION WITH INTERNATIONAL
PARTICIPATION
23rd Edition

22 - 24 June 2016, ALBA IULIA, ROMANIA

INVITATION

Cradle of history and symbol of the great of union, Alba Iulia, will be the host of the 23rd National Conference Foundry, organized by ATTR – Romanian Foundry Technical Association and Saturn Alba Iulia.

The conference will be held June 22-24 and will bring together specialists from all around the world, implied directly or indirectly in Romania's casting production.

During the two and a half days of conference, specialists in metallurgical processes and suppliers of raw materials, equipments and advanced technologies will present the latest achievements in worldwide casting industry, trends and perspectives of this business field, that is going through major structural changes.

Similar to the previous edition, Romanian and foreign companies will present high-performance technologies and products, which could contribute to boosting the competitiveness level of the Romanian foundries.

Conference Program at a Glance:

- ≈ Romanian and foreign specialists will present technical and economic papers in the Conference Plenum;
- ≈ Introduction of companies interested in the casting production, (especially for export), in a special designated room;
- ≈ Business meetings of Romanian and foreign companies;
- ≈ Distribution of Technical and Promotional materials;
- ≈ Romanian Casting Production 2011 – Presentation
