

THE ROMANIAN FOUNDRY TECHNICAL ASSOCIATION

Has the great pleasure of inviting you to the symposium with the theme:

MODERN SOLUTIONS TO INCREASE THE FOUNDRIESS COMPETITIVENESS

Which will take place from 16 to 17 November 2017 at Hotel Ana Airport in Sibiu, Romania.

The objective of the symposium is to bring to the attention of the Romanian castings producers the modern and efficient solutions for increasing the level of competitiveness of foundries.

For this purpose, during the two days, specialists in metallurgical processes and suppliers of raw materials, equipment and technologies for foundries will present:

- new trends in the efficient use of raw materials and auxiliary materials in foundries;
- advanced technologies for moulding and casting;
- modern equipment for processing and production control in the foundry;
- financing solutions for the programs of enhancing the enterprises competitiveness.

PARTICIPATION FEES

- Participation fees: 60 EUR
- Advertising fee for companies: 500 EUR
(The fee includes presentation of advertisements / commercial paper, in the limit of 30 minutes and distribution of commercial materials in the conference map)
- Handing out publicity materials in the Symposium Map: 50 EUR / material
- Transport, accommodation, other costs: on behalf of participants
