**WITH INTERNATIONAL PARTICIPATION**

**24<sup>th</sup> Edition, 21-23 JUNE 2018, REGHIN, ROMÂNIA**

**IRUM**

## INVITATION

Down on the Mureş River, in a nice town called Reghin, a town revered by violins, will take place the 24<sup>th</sup> Romanian Foundry Conference and Exhibition with International Participation organized by ATTR- Romanian Foundry Technical Association and SC IRUM SA.

The Organizing Committee invites you to participate in period: June 21-23, 2018 at the work of Conference specialists from our country and abroad, specialists involved in the manufacture of casting parts from Romania.

IRUM SA Reghin, a major manufacturer with a tradition of over 60 years in the forestry and agricultural equipment industry, which has generous spaces of production, design and conception, will provide the logistic facilities for the Conference plenary session and for the exhibition.

The Conference will be dedicated to the scientific and technical work with the latest achievements in the world of casting industry, it will be made visits to the production sectors at IRUM, at Plasmaterm – investment casting and at the AAGES Company which produces induction heating equipment.

It will be organized an exhibition pavilion where Romanian or foreign companies will present products, equipment, materials, technologies, laboratory apparatus for casting industry.

### From Conference Program:

- Scientific Paper presentation in Conference Plenary/Poster;
- Presentations of companies involved in the manufacture of castings;
- Organization of business meetings between representatives of companies involved in the production of castings;
- Visits to: IRUM SA, Plasmaterm SA, AAGES SA;
